BHANERO TEXTILE MILLS LIMITED

DIRECTORS' REVIEW

On behalf of the board of directors of Bhanero Textile Mills Limited, I am pleased to present, the un-audited interim condensed financial statements for half year ended 31st December 2009 alongwith auditors' review thereon.

Operating Results

During the half year ended 31st December 2009, the company's profit after tax came to PKR 80.255 million as compared to PKR 53.238 million for the half year ended 31st December 2008. During the half year under review the economy of Pakistan remained under pressure due to overall law and order situation in Pakistan. However, by the Grace of Al-Mighty Allah, yours company maintained the profitability track despite these tough business conditions.

The earning per share (EPS) for the half year ended 31st December 2009 is PKR 26.75 (31st December 2008: 17.75).

The company's financial position continues to remain robust reflecting good fundamentals supported by strong capital and revenue reserves. Break up value of shares is PKR 352.99 as at 31st December 2009 (30th June 2009 PKR 328.23).

The title "balance sheet" has been replaced by "Statement of Financial Position" and title "Profit and loss account" has been replaced by "Income Statement" and a new statement namely "Statement of Comprehensive Income" has been included in compliance of the requirements of IAS - 1, Presentation of Financial Statements.

Year under Review

The demand of yarn has increased worldwide. Government has imposed quota on export of yarn except for certain category of yarn, keeping in view of availability of yarn for local consumer. Imposition of quota on export of yarn has constraint the activity of export of yarn. Unlike world cotton, local trading of cotton is currently fully of volatile. Currently cotton rate has gone above PKR 5,700 per maund.

Rising trend in finance cost has so far been controlled through monetary policy but it is still at higher side. Government should make efforts to bring KIBOR in single digit.

Interrupted power supply has significantly affected production efficiencies and resulted increases in per unit production cost. Besides the load shedding of electricity massive load shedding of gas in Punjab was observed during December 2009 to February 2010 because export oriented textile sector was placed on fourth priority level. In the absence of gas supply, we had to operate machinery through power generation based on furnace oil because currently WAPDA is not reliable source of electricity due to interrupted supply of electricity.

In the present scenario the results are likely to be positive in coming quarters. However the effect of gas load shedding and increase in tariff of gas is a concern on profitability. The management of the company is doing its best efforts to maintain the profitability margin.

Acknowledgement

Yours Directors record with appreciation, the efforts of the Company's managers, technicians and workers who have worked vigorously to meet the target. Yours directors also extent their appreciation to the Company's banker, buyers and suppliers for the cooperation extended by them.

**Auditors' Report to the Members on Review of Condensed Interim
Financial Information**

Introduction

We have reviewed the accompanying condensed interim Statement of Financial Position of **Bhanero Textile Mills Limited** as at December 31, 2009, and the related condensed interim Income Statement and condensed interim statement of comprehensive income, condensed interim Statement of Cash Flow and condensed interim statement of changes in equity together with the notes forming part thereof (here-in-after referred to as the interim financial information) for the half year then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on this condensed interim financial information based on our review. The figures for the quarter ended December 31, 2009 and 2008 have not been reviewed, as we are required to review only the cumulative figures for the half year ended December 31, 2009.

Scope of Review

We conducted our review in accordance with international standard on review engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of the persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information as of and for the half year ended December 31, 2009 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting.
